Sakwa, Waclaw.
DIFFUSION COATINGS ON DUCTILE CAST IRON.
[1961] 8p. (1 fig. omitted) 6 refs.
Order from SLA $1.10 62-10455

Trans. of Wiadomosci Hutnicze (Poland) 1955 [v. 11] p. 266-269.

DESCRIPTORS: *Cast iron, *Metal coatings, *Corrosion inhibition, Coatings, Thermal diffusion, Chromium plating.

The process which produces protective diffusion coatings on castings of ductile iron during their graphitization, though extending a little the annealing range, shortens the period, required for the mechanical working and reduces production costs, especially with regard to the thermal energy. The diffusion method is, in particular, suitable for forming protective coatings on objects showing complex shapes and on castings. (Author) (Metallurgy--Ferrous Metals, TT, v. 7, no. 9)

62-10455
